Knowledge Translation for Employment Research (KTER) Center Scoping Review Findings

Pre-employment transition services for students with disabilities

Date: May 2020
Presenter: Jeremy Rasmussen

KTER•CENTER

Knowledge Translation for Employment Research

KTER Center

KTER develops and tests knowledge translation (KT) strategies designed to help vocational rehabilitation (VR) agencies and businesses find, understand, and use research related to employing people with disabilities.

Jeremy Rasmussen

Jeremy Rasmussen is a technical assistance consultant at the American Institutes for Research (AIR). His work with the KTER Center includes assisting with literature reviews, research synthesis, technical writing, and general project management. He also serves as a product development manager for the Model Systems Knowledge Translation Center (MSKTC). Rasmussen holds a master's degree in English from DePaul University.

What were some of the key findings of this review?

KTER•CENTER
Knowledge Translation for Employment Research

What types of studies were included in these reviews?

KTER•CENTER
Knowledge Translation for Employment Research

What were the limitations of this scoping review?

KTER•CENTER
Knowledge Translation for Employment Research

What are the implications for policy and practice?
